Standard 6" Inlet System Options

This setup shows a standard 6" to 6" tile configuration:

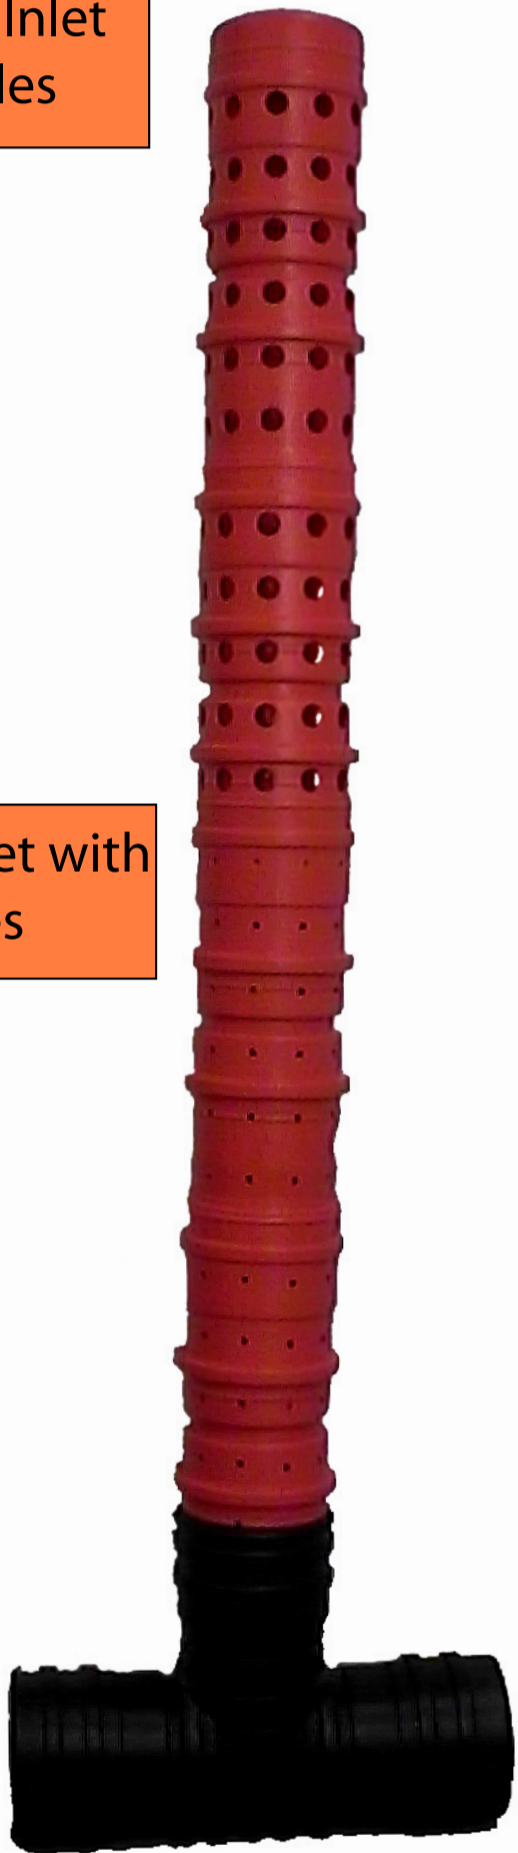

HBI-6516- 6" Inlet with 1" Holes

Alternate System Options

It is possible to have a 5" riser section and connect it to 6" tile. This is done by replacing an HBI-6BTN- a 6" Intake Tee with an HBI-65BT- a 6" Intake Tee with a 5" inlet bell so that the 5" riser can snap directly into the tee without the aid of an adapter.

HBI-6516- 6" Inlet with 5/16" Holes

HBI-6BTN- 6" Intake Tee
